Amendments to the Specification:

Please replace the paragraph beginning at page 5, line 15 with the following amended paragraph:

FIG. 3 illustrates two such composite images, composite images 300 and 310, each of which is derived from four images ~~320, 330, 340 and 350~~. In composite image 300, image 340 is the center of projection, and is therefore included in its original, rectangular form. Composite image 300 also includes modified versions 320a, 330a, and 350a of the remaining three images ~~320, 330 and 350~~ (i.e., images ~~320a, 330a and 350a~~), each of which is corrected for perspective distortion relative to image 330. By contrast, in composite image 310, image 330 is the center of perspective (and is therefore included in its original, rectangular form), and the composite image includes modified versions 320b, 340b and 350b of their respective original images ~~320, 340 and 350, respectively~~. These modified versions are corrected for perspective distortion relative to image 330.
